June 13, 2016

Missoula County Board of Commissioners
200 W Broadway
Missoula MT 59802

Dear Commissioners:

The Bonner Milltown Community Council requests assistance from Missoula County to consider initiating a process that will culminate in a Bonner Milltown Community Plan. Interest in further development in Bonner/Milltown has been shown by the positive developments of the Bonner residences, Bonner industrial site, and the Milltown State Park as well as the recently begun waste treatment feasibility study.

Local residents enjoy a community with a rich historical heritage, open space, a semi-rural atmosphere, outdoor recreational opportunities, and a growth of employment opportunities. We have expressed our development preferences in the past, most recently at a January, 2009 community planning roundtable. However, none of these community development interests have ever culminated in a planning document.

Because a fair number of local land parcels remain undeveloped and unzoned, and considering the growth stimulus occurring because of recent community developments, the Council would like Missoula County to initiate a planning process. We look forward to your response and the opportunity to participate.
