Commissioners' Meeting Room Open House

After years of planning, one of the final additions to the Missoula County Courthouse renovation project is now complete: the commissioners' public meeting room. This space, located in the Courthouse Annex across from Liquid Planet, provides enhanced ADA accessibility services, HD video and audio recording technology, upgraded monitors to assist in presentations, new seating, an isolated WiFi internet connection and multiple room configurations.

"We look forward to welcoming the community to our new space," Commissioner Rowley said. "These enhancements demonstrate our commitment to providing accessible and transparent services to our residents."

Missoula County would like to invite members of the media to an open house on Monday, Sept.12, 2016 at 10:30 a.m. This is an opportunity to test new technology and learn firsthand how these improvements will best serve your needs. County staff will be on hand to assist in demonstrating any features you may be interested in and can help navigate the new configurations.

We hope to see you next Monday.
