I would like to submit a comment regarding the Swan Valley Plan. In the Land Use section, motorized recreation is minimally mentioned. This type of recreation draws younger residents and visitors to our area. It also keeps people here. Unfortunately, access to public lands for motorized recreation, including ATVs, motorcycles, and snowmobiles, has become increasingly restricted. This is a major concern for many people currently residing in the Swan Valley. It is a factor that can have an integral part in a family deciding whether to remain in the Swan Valley or relocate elsewhere. I believe the plan needs to specifically include policies and goals for increasing access to public lands for motorized recreation.
