

Swan Valley Regional Plan

1.0 Natural Resources and Environment

Actions

1. We already have BMP and SMZ laws and regulations in effect to protect water quality. This sentence could read: Encourage local citizens to follow the BMP and SMZ laws that are in effect.
5. Not sure I would want someone telling me what I can and can not do with my land because it could be considered wildlife corridor. Could read: Give people the tools and information to make educated decisions when working with wildlife corridors.

3.0 Land Use

3.3 Non-Residential Land Use

This community is and always has been comprised of many home based businesses. I would not encourage any regulation that could deny these opportunities. I would suggest deleting the second and third paragraphs in this section.

Thank You,

Nathan Richardson
