

MTDA CAN HELP YOUR STUDENTS MAKE-UP CREDITS!

New!!

MTDA Connect

Credit Retrieval Program

- MTDA Connect, the new credit retrieval curriculum option being offered by the Digital Academy will be available to students in Montana beginning February 1, 2011.
- It will not replace the regular online courses available through the Academy but will offer a unique, flexible credit retrieval option to students who are in need of making up credits to get back on track to graduate.
- Connect is an flexible-entry/exit credit retrieval option for students which is facilitated by a Connect Academic Coach, a MTDA Montana licensed teacher, who regularly monitors student progress, grades assignments, communicates with students and works hand-in-hand with a site facilitator at the local school.
- Schools registering students in the program will need to identify a local site facilitator at their school who will help with regular computer access and work in conjunction with the MTDA Connect Coach to support and guide students toward completion of their learning modules.
- The program uses a pre-assessment based approach to determine each student's learning gaps and needs and then provides a series of instructional modules designed to help meet the individual student needs.
- The Connect curriculum offers core high school content area subjects (English, Math, Social Studies, and Science) and is powered by the PLATO Learning Environment. To take advantage of this new credit retrieval option for students, districts should contact Ryan Schrenk at Connect@montanadigitalacademy.org
