

ROAD, PARKING LOT, AND STORAGE AREA APPLICATION AND PERMIT
MISSOULA CITY-COUNTY HEALTH DEPARTMENT
 301 W. ALDER MISSOULA MT 59802 (406) 258-4755
MISSOULA COUNTY AIR STAGNATION ZONE

This application and permit establishes a minimum standard for paving/graveling roads, accesses, egresses, parking areas and long term storage facilities inside the Air Stagnation Zone and outside city limits. This application and permit is for all new vehicle use areas excluding residential driveways; residential driveways require a different permit.

Owner Name: _____ Phone: _____.

Owner Address, City, State, Zip: _____.

Assigned site address: _____ Zip Code _____.

Certificate of Survey #: _____ Subdivision: _____.

Lot: _____ Block: _____ Tract: _____ T _____, R _____, _____ 1/4 of Sect. _____ Geocode: _____.

PERMIT CONDITIONS (check all that apply below):

Roads:

- New public and private roads must be paved within 2 years (730 days) of final plat approval or beginning of road construction, whichever comes first.
- New roads serving commercial or industrial sites must be paved prior to occupancy.

Parking Areas, Accesses and Egresses:

- Parking areas, including but not limited to customer, employee and vehicle sale lot parking must be paved before occupancy.
- All accesses and egresses must be paved to the access road before occupancy.
- All accesses and egresses to unpaved storage areas must be paved to the edge of the storage area before occupancy.
- All accesses and egresses to unpaved recreational vehicle (RV) parking at RV Parks must be paved up to the RV parking area before occupancy.

Parking Areas, Storage Areas and RV parking at RV parks:

- Storage areas for heavy equipment or semi-trucks may be graveled. Minimum Department graveling standards must be met prior to occupancy. Only heavy equipment or semis may park in the storage area.
- RV parking at RV Parks may be graveled. Minimum Department graveling standards must be met prior to occupancy.
- Long term storage areas may be graveled. Minimum Department graveling standards must be met prior to occupancy.

Unpaved Road Access, Site Plans and Special Conditions:

- Access is by unpaved road, owner of real property must execute a deed restriction waiving option to protest paving (R)SID.
- Attached paving/gravel site plan is hereby made part of this permit.

Special conditions: _____.

Call 258-4755 for final inspection when paving/graveling is complete.

As purchaser of this permit, I agree to comply with all driveway/road/storage/parking area requirements as described in the Missoula City-County Air Pollution Control Program and with conditions specified above. **This document does not release me from complying with any other State, Federal, or Local regulations including by not limited to zoning, approach and construction regulations.** This permit is valid for twelve months after date of issuance.

The Department is granted authority to inspect driveway, road, access, egress, parking, and storage areas to determine compliance.
