| Mercury                              | \$7.00/pound                | \$250.00                      | -----                             |

### NOTE:

1. To comply with federal hazardous waste regulations: Waste must have been generated from a facility that:
  - a. Generates less than 220 lbs (**approx 26 gallons**) of hazardous waste or 2.2 lbs of acutely hazardous waste in any month
  - b. Has not accumulated more than 2,200 lbs of hazardous waste or 220 lbs of acutely hazardous waste
2. Business/Commercial waste limited to 220 lbs (**approx. 26 gallons**) at this collection event. Collection of volumes exceeding these amounts can be arranged directly with our contractor.
