Local Health Officials Confirm Second COVID-19-Related Death in Missoula County

The Missoula City-County Health Department is deeply saddened to announce that a second Missoula County resident passed away from complications due to COVID-19 infection.

The health department and local government leadership send our deepest condolences to their family, friends and loved ones at this terrible time.

We urge people to continue being vigilant and supportive of each other by practicing good hand-washing hygiene, limiting their social circles, maintaining six feet between others, wearing a cloth face covering in public and staying home when they have any symptoms of illness.

We cannot release details about the individual other than they were middle-aged or older. We wish to respect the family's privacy and cannot tell the family how incredibly sorry we are for their loss.
